Finale Song lyrics

1st verse:

We build connections together,
Stronger than their walls
As your soil surrounds us
And your earth fills our pours
We hear your warnings
Unite us bright as sun
As we wake in your beauty
Reminding us we're one

Chorus:

We wait, listen, dance in your gardens,
we wait listen dance in your gardens
we wait listen dance in your gardens
together we're one
together we're stronger

2nd verse:

Your rivers come flowing,
From mountains way up high
With the power to move us,
To show us what is right,
The winds of change are blowing,
With seeds upon the breeze
A new world it is growing
And life again can breathe.

Chorus:

We wait, listen, dance in your gardens,
we wait listen dance in your gardens
we wait listen dance in your gardens
together we're one
together we're stronger
